

ROTARY CLUB OF WELLINGTON CENTRAL

Guidelines for Dispersal of Money Held by the Charitable Trust

1. The main focus is on projects that have the potential to assist young people.
2. Money is to be directed to organisations rather than individuals. The benefit of an individual, or a limited group of individuals, may be considered only in exceptional circumstances.
3. The prime focus is on the Greater Wellington area, although NZ – wide organisations that have a Wellington connection may be considered.
4. Under the trust deed, money will very rarely be able to be spent on overseas projects.
5. The Trustees will endeavour to work with other Rotary Clubs within the Greater Wellington area if they have projects that qualify for assistance.
6. It is preferable to be able to make a small number of large grants than a large number of small ones.
7. Grants will usually be “one-off”, with no continuing commitment by the Trust.
8. In considering an application for assistance the following questions are relevant:
 - 8.1 how beneficial is the project to the community as a whole?
 - 8.2 what other sources of funds are available?
 - 8.3 to what extent can the use of funds be adequately controlled by the recipient and monitored by RCWC?
 - 8.4 will any benefit be enduring or transitory?
 - 8.5 will the applicant(s) be deriving any personal benefit?
